AARON RUOWEN BAI

Tel.: 1-(365)888-3958 **Email**: ruowen.bai@ubc.ca
Website: bairuowen.github.io/ **LinkedIn**: www.linkedin.com/in/aaron-ruowen-bai/

EDUCATION

Ph.D., Electrical and Computer Engineering 2018-2021
McMaster University, Canada
Dissertation: "Spectrum and Optical Power Efficient OFDM for Visible Light Communications"
Supervisor: Prof. Steve Hranilovic
Ph.D. Comprehensive Examination: P+
GPA: A+

M.Eng. (with Hons.), Electronic Engineering 2015-2018
Tsinghua University, China
Dissertation: "Research on Multi-carrier Key Techniques for Visible Light Communications"
Supervisor: Prof. Zhaocheng Wang

B.Sc., Electronic Information Science and Technology 2011-2015
Nankai University, China
Dissertation: "The Design of Microstrip Antenna"

HONORS AND AWARDS

Ph.D. Comprehensive Examination: pass with distinction (P+)	2020
National Scholarship for Graduate Students (¥20000, rank 1/62)	2017
National Scholarship for Undergraduate Students (¥8000, rank 1/46)	2014
National First Prize in Contemporary Undergraduate Mathematical Contest in Modeling	2014
Tianjin Province-First Prize in National Undergraduate Electronic Design Contest	2013
Tianjin Province-First Prize in "TI Cup" Undergraduate Electronic Design Contest	2012

TECHNICAL SKILLS

- MATLAB: 9-year Programming Experience in Monte-Carlo Simulations, Algorithm Design and Implementation, Proficient in Simulink, and Tool Boxes Related to Communications and DSP
- Python: 5-year Programming Experience in Quantization, Data Visualization, Machine Learning Framework, TensorFlow and PyTorch
- Proficient in Embedded C/C++, SQL, Java, JavaScript, Jupyter, Verilog and VHDL (for FPGA)
- Experienced with Common Linux/Ubuntu Commands, Git/Github, Android Studio, Google Colab
- Proficient in using Oscilloscope, Spectrum Analyzer, JTAG, Logic Analyzer, System Analyzer
- Proficient in Using Operating Systems Such as Windows, Linux/Ubuntu and macOS
- Proficient in Microsoft Office Tools such as Word, Excel and PPT
- Good Team Player and Leader with Strong Communication Skills
- Strong Written English and Mandarin

PROFESSIONAL EXPERIENCE

The University of British Columbia
Postdoctoral Research Fellow 05.2022 – Present
Supervisor: Prof. Julian Cheng

I. Help Create Secure Mobile Networks Using Ultraviolet Communication Technology
   a. Research on Monte-Carlo Simulation Models for Multiple Scattering UVC Channels
   b. The UVC Capacity Derivation and Proof
   c. System Simulation and Proof Based on USRP, Matlab & Simulink
   d. Ultraviolet Communication System Design Based on FPGA and ARM

II. Marine Mammal Detection and Classification
   a. Research on Machine Learning Neural Networks Using Marine Mammal Sounds/Pictures
   b. Construct Neural Network Models Based on PyTorch and Tensorflow AI Framework
   c. Achieve Above 95% Classification Accuracy for 32 Different kinds of Mammals

McMaster University
Postdoctoral Research Fellow 01.2022 – 04.2022
Supervisor: Prof. Steve Hranilovic

I. Proposed a novel low-complexity modulation scheme saving 50% arithmetic operations, and thus led a journal paper published in TGCN
II. Finished a Paper Draft on Optimal Power Allocation for SO-OFDM
III. Research in Secure Optical OFDM for Li-Fi

Teaching Assistant for 7 courses 09.2018 – 12.2021
My Responsibilities: *Leading Tutorials, Lab Supervision, Lab Report Marking, Project Report Marking, Grading Midterm Test and Final Exam, Interacting with Students, etc.*

Tsinghua University
Teaching Assistant for "Foundations of Electronic Circuits and Systems" 01.2016 – 12.2016
My Responsibilities: *Lab Supervision, Report Marking, Interacting with Students, etc.*

Research Assistant for Li-Fi Techniques 01.2016 – 06.2018
Research in MIMO, OFDM, Optical Wireless Communications for Li-Fi.

Nankai University
Librarian Assistant 02.2013 – 01.2014
My Responsibilities: *Assist to Classify New Books and Sort Books onto the Shelves.*
Awarded the title: Excellent Individual for Work-Study Program.

Volunteer SERVICE

Topic Editor for *Frontiers in Communications and Networks* Since 2022
IEEE Member / Optica(formerly OSA) Member
Volunteer Tutor for 7 Undergraduates at McMaster University: 2021-2022
   a. Research on LED Deployment under Illumination Constraints
   b. Simulate an Office Illumination Distribution Using Zemax OpticStudio

Active Journal and Conference Reviewer:
IEEE Transactions on Communications, IEEE Journal of Lightwave Technology, Optics Express, IEEE Communication Letters, IEEE Access, GLOBECOM, ICC, etc.

Vice President of Duolong Electronic Association at Nankai University 2013-2014
